

## Centro Interuniversitario di Ricerca sull'Elaborazione Cognitiva nei Sistemi Naturali e Artificiali

### SMI Eye Tracking Roadshow in Italy

Register for our 2012 roadshow series and enjoy a hands on demo of the latest SMI Eye Tracking products.

#### Hands-on Events

Our experienced eye tracking researchers will present the latest SMI solutions including:

[SMI Eye Tracking Glasses](#) - our recently launched mobile eye tracking device for real-world perception studies

[SMI RED500](#), world's first 500Hz binocular remote eye tracking device for screen-based studies of human behavior or user interaction

[SMI Experiment Suite 360°](#) the SMI eye tracking software for intuitive study design and meaningful analysis of eye tracking data

After the presentation, you will have the opportunity for hands-on testing of the products and for individual discussions with fellow researchers.
